Notice of single lane closures on the B4438 and Northway

October 2019 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Early works for HS2 are carried out by a joint venture between Laing O'Rourke and Murphy & Sons known as LM. In your area, we are working near the A452, A45 and M42, which surround the site of the future HS2 Interchange Station.

We're preparing for our future highways work

To help us accurately plan our future highways work in your area, we need to take a number of core samples to understand the makeup of the carriageway. We will drill small holes into the ground, to enable us to take a sample, and then refill the holes.

Recently, we also completed a new access road located off the B4438 to service a future compound. To ensure that road users know where this access road is, we need to install new road signage.

To conduct these works safely, we need to undertake a number of temporary overnight and daytime single lane closures.

We'll be starting work on 21 October

We will be carrying out temporary overnight single lane closures on the B4438 and Northway, from Monday 21 October to Wednesday 23 October, between 8pm and 6am (see map on next page).

We will also be carrying out temporary daytime single lane closures on the B4438, from Monday 21 October to Tuesday 22 October, between 9.30am and 3.30pm (see map on next page).

You may see our contractors on site up to an hour before and after those times.

This schedule is subject to change depending on site and weather conditions, but we'll keep you informed of any adjustments via: www.hs2insolihull.co.uk

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses across Birmingham and the West Midlands, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: www.groundwork.org.uk/hs2funds
